

**CS**™ **Acrovyn**® Wall & Door Protection

*Healthy  
wall protection  
can still be  
beautiful.*

# Having trouble figuring out which wall protection is safe for the environment?

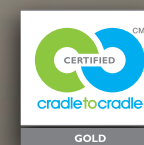

## Not with Acrovyn®!

Acrovyn 4000 contains no halogens, monomers or other known persistent bioaccumulative toxins (PBTs) and is UL Class A/1 fire rated and labeled.

That's because some manufacturers are making environmental claims that will confuse you. Not us. Acrovyn 4000 was thoroughly tested by McDonough Braungart Design Chemistry (MBDC), who offers one of the industry's most comprehensive third-party environmental evaluations. MBDC analyzed all Acrovyn 4000 components to 100 parts per million (not just the base resin) and found that they contain no PVC, PBTs or other harmful chemicals\*. C/S is committed to selling only Acrovyn 4000 while other wall protection manufacturers continue to sell PVC and are unwilling to disclose what chemicals their product options contain. In addition

to material health, MBDC also evaluates other aspects of how a company operates including material reutilization, renewable energy use, water stewardship and social responsibility before a product is certified. The result: Acrovyn 4000 is the only wall protection system that is MBDC Cradle to Cradle Certified™ Gold or Silver. Dedicated to environmental leadership,

C/S is committed to developing products that have no negative impact on buildings and their occupants and has voluntarily been ISO 14001 certified. So if protecting people is as important as protecting your walls, choose Acrovyn.

*\*See test results at [www.c-sgroup.com/acrovyn/results](http://www.c-sgroup.com/acrovyn/results)*

### Environmental Achievements

C/S was awarded Practice Greenhealth's Champion for Change Award for the past three years and EPA's 2011 Mid-Atlantic Environmental Achievement Award. Acrovyn 4000 was recognized as one of the Top 10 Green Building Products of 2010 by Sustainable Industries magazine and won Architectural Products' 2011 Product Innovation Award.

### "Imagine: Cancer treatment centers built without materials linked to cancer..."

Inspired by this statement from Green Guide for Health Care, C/S is offering Acrovyn 4000 SM-20 corner guards in the new #235 Pink Ribbon color. A portion (10%) of the proceeds from "Project Pink" will benefit the National Breast Cancer Coalition Fund. ([www.BreastCancerDeadline2020.org](http://www.BreastCancerDeadline2020.org))

# Designers and owners love Acrovyn® 4000's new texture.

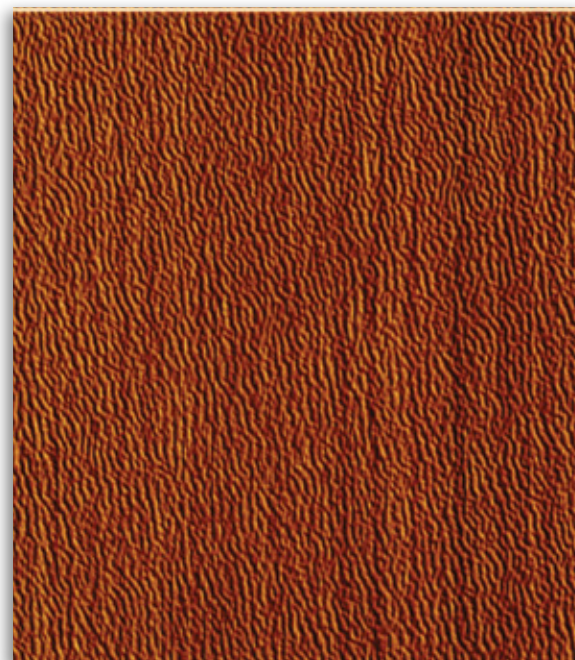

*The new texture is easier to clean and maintain.*

We understand that people use wall protection because they need it, but we also know how important aesthetics are to our customers. **Acrovyn 4000 now has a contemporary new texture that designers and owners overwhelmingly prefer over other companies' wall protection with pebblette texture.** Owners find the reduced surface texture much easier to clean and maintain. Acrovyn 4000's new texture also improves color consistency between the end cap and profile and makes our Chameleon simulated wood and metal patterns more realistic than ever. Yet another advancement from C/S, the inventor and leader in modern wall protection for over 40 years.

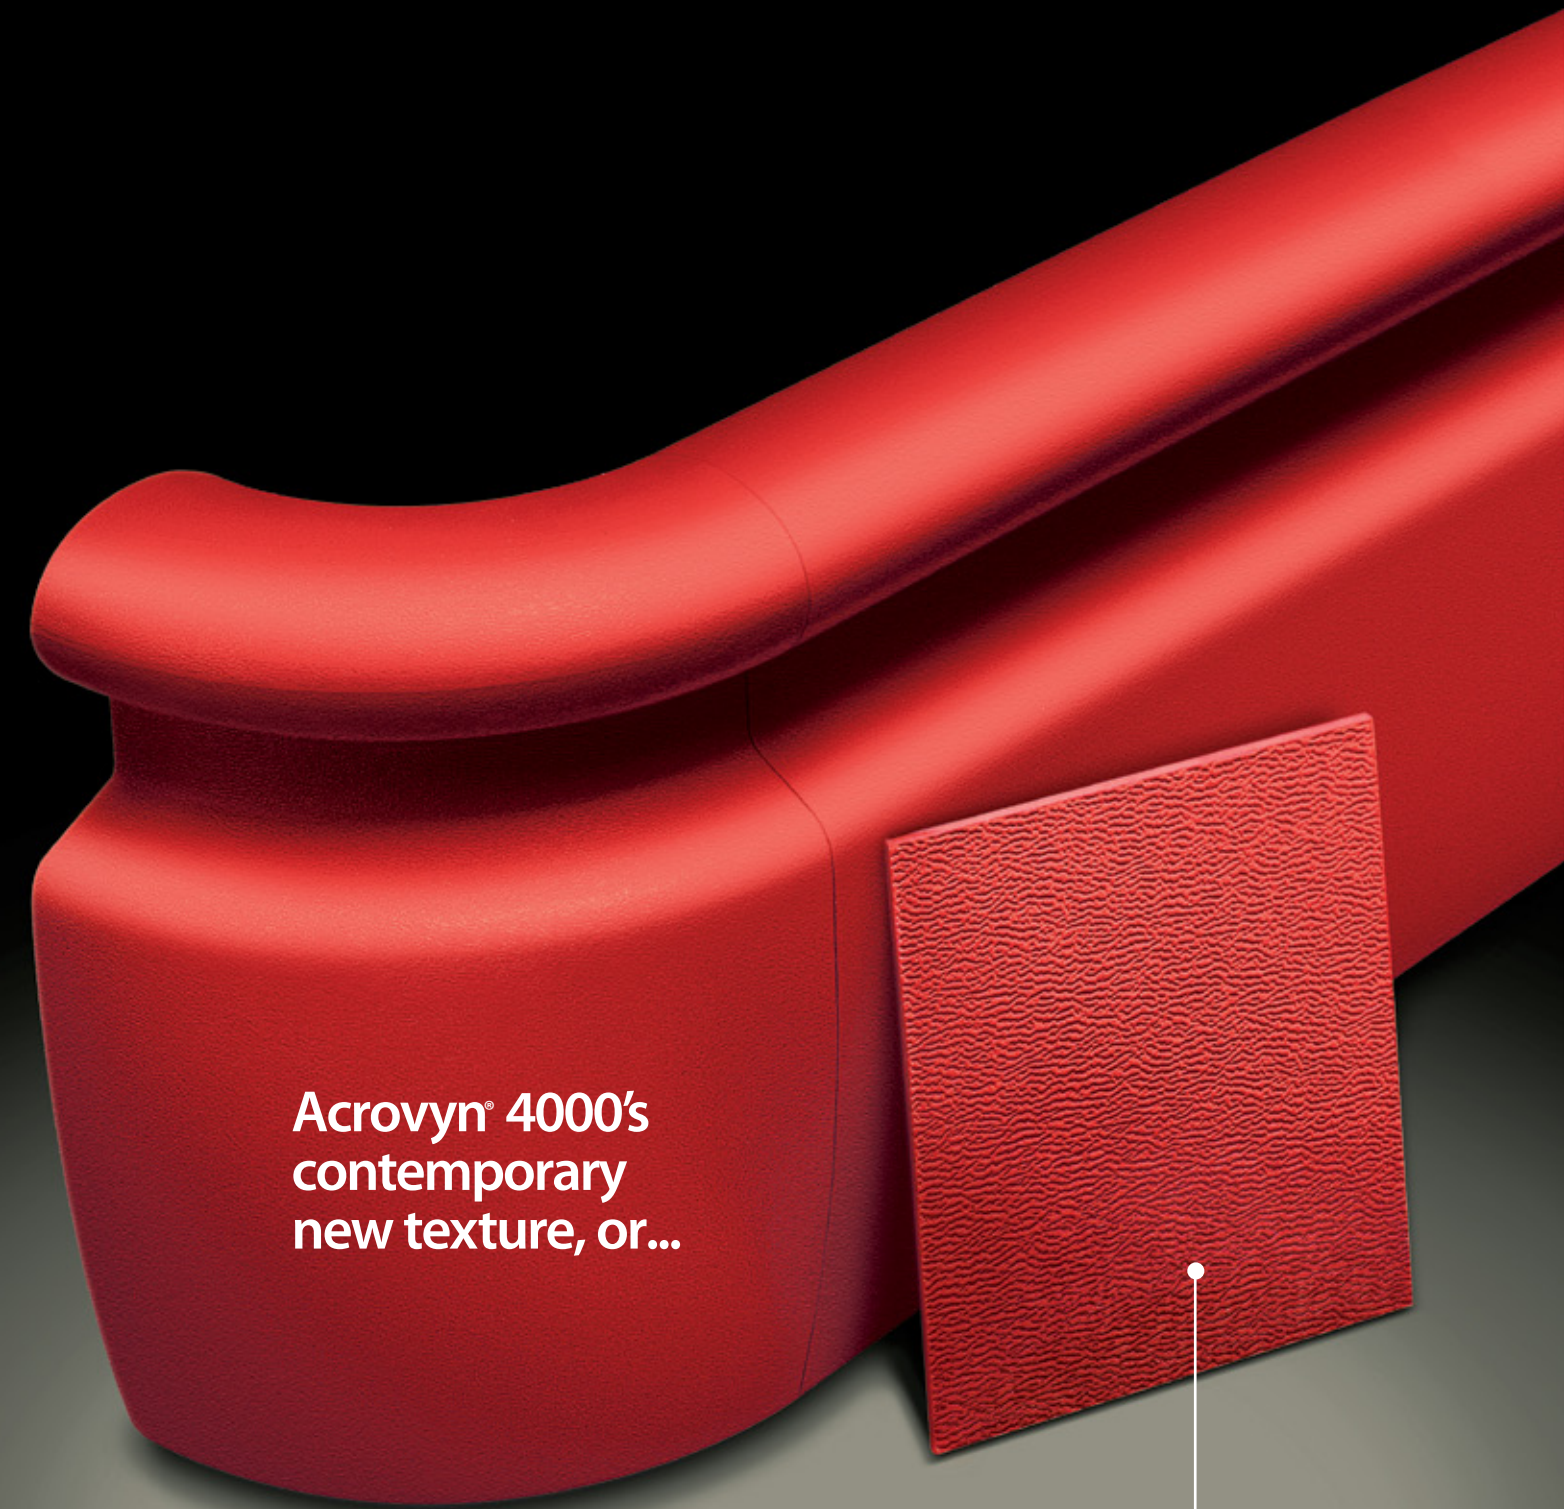

Which simulated wood looks more realistic to you?

Acrovyn® 4000 Wall Guard

Competitor Wall Guard

Acrovyn® 4000's contemporary new texture, or...

everyone else's pebblette texture?

You decide.

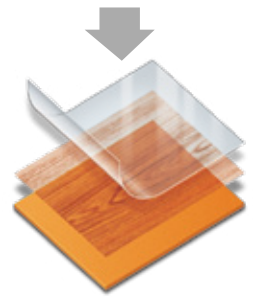

# Introducing Acrovyn® 4000 Chameleon™ Simulated Wood and Metal Collection

*Now PVC-free and even more realistic*

Acrovyn Chameleon™ offers the industry's best looking, most durable simulated patterns available today. **The Chameleon's patterned ink and base material are completely free of PVC,** and Acrovyn 4000's new contemporary texture makes **our wall guards look even more realistic.** The smooth texture is easy to clean. Chameleon is 20 times more durable than stained wood.

*Our tough, easy to clean Chameleon Collection is available on most of our products, including doors, wall coverings, wall guards and wall panels, ensuring a totally coordinated look for your interior.*

*Our exclusive fusion bonding process means Acrovyn 4000 simulated wood patterns won't wear, scratch or peel off. It becomes integral with the Acrovyn material.*

*Acrovyn Chameleon's surface cleans easily with non-abrasive cleaners.*

*Acrovyn Chameleon patterns are 20x more durable than stained wood and 4x more durable than laminate.*

*All Chameleon patterns for Acrovyn wall guards and wall coverings are MBDC Cradle to Cradle Certified™ Silver.*

Classic Maple Wall Panels*

## Acrovyn® Crash Rails

*Lots of great looking options to keep your facility looking new*

**1 Acrovyn**  
New Acrovyn 4000 is free of PVC and PBTs. Rugged Acrovyn crash rails in 1 1/8" – 8" heights prevent carts from damaging walls.

**2 Acrovyn Chameleon™ Simulated Wood & Metal**  
PVC-free Chameleon crash rails and rub rails withstand the abuse real wood and metal just can't handle.

**3 Acrovyn Renaissance™ Real Wood & Metal**  
We've added a new line of wood/metal rub rails to our elegant real wood and metal crash rail offering.

**4 Stainless Steel**  
For the ultimate in wall protection, C/S offers a variety of stainless crash rails that are perfect for laboratories and other high abuse areas.

**NEW** Shadowgrain  
Texture

Architects and owners alike agree that new Acrovyn looks considerably more modern than wall protection with a Pebblette texture.

# Acrovyn® Crash Rails

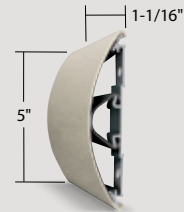

📄 For comprehensive information on these products, visit [www.c-sgroup.com/crashrails](http://www.c-sgroup.com/crashrails)

**SCR-50N**

**Product features**

SCR-50N is a 5" high crash rail surface mounted with 1" aluminum clips standard; continuous aluminum retainer available (SCR-50MN)  
 Bumper model BCR-50N includes continuous aluminum retainer  
 Optional vertical accents available; see pgs. 74-75

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

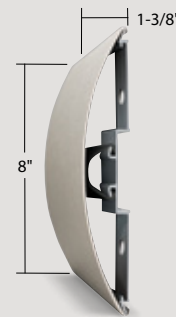

For selection charts see pgs. 74-76

**SCR-80N**

**Product features**

8" high SCR-80N's retainer attaches to 1-1/2" aluminum clips; continuous aluminum retainer available (SCR-80MN)  
 Bumper model BCR-80N includes continuous aluminum retainer  
 Optional vertical accents available; see pgs. 74-75

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

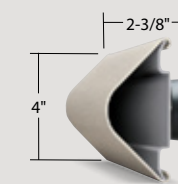

For selection charts see pgs. 74-76

**BG-10N**

**Product features**

A bullnose bumper designed to keep carts away from walls  
 4" high profile features a continuous aluminum retainer mounted on 1/2" bumper cushions

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

\*500 LF min. For selection charts see pgs. 74-76

**BG-30N**

**Product features**

2-3/4" high bumper guard for chair rail applications  
 Profile mounts on 1/4" bumper cushions for shock absorbency  
 Includes a continuous aluminum retainer

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

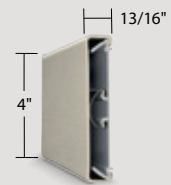

\*500 LF min. For selection charts see pgs. 74-76

**SCR-40N**

**Product features**

SCR-40N is a 4" high surface mounted crash rail  
 Model BCR-40N features bumper cushions behind retainer  
 Extended profile model ECR-40N  
 All models include a continuous aluminum retainer

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

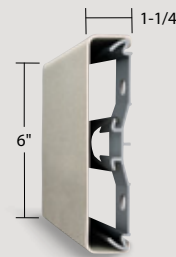

For selection charts see pgs. 74-76

**SCR-48N**

**Product features**

SCR-48N is a 6" high crash rail mounted with 1-1/2" aluminum clips; continuous aluminum retainer available (SCR-48MN)  
 Bumper mounted BCR-48N and extended mount ECR-48N include a continuous aluminum retainer

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

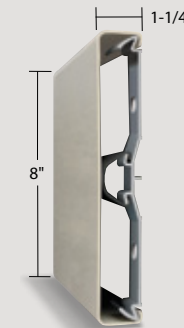

\*500 LF min. For selection charts see pgs. 74-76

**SCR-64N**

**Product features**

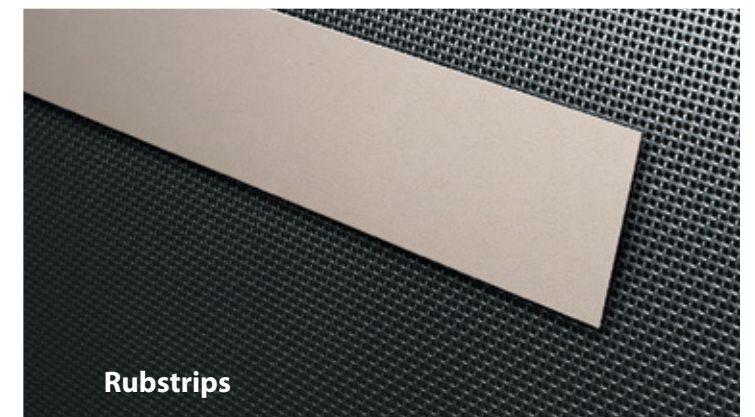

8" high surface mounted SCR-64N crash rail  
 SCR-64N's retainer attaches to 1-1/2" aluminum clips; continuous aluminum retainer available (SCR-64MN)  
 Bumper mounted BCR-64N and extended mount ECR-64N include a continuous aluminum retainer

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

\*500 LF min. For selection charts see pgs. 74-76

**Rubstrips**

**Product features**

Economical rubstrips for areas that get scuffed  
 Material cut to specified heights from .040" or .060" sheet material  
 Rubstrips feature top and bottom tapered edges and mount with adhesive

**Available in:**

**64** Acrovyn Colors | **16** Faux Woods | **2** Faux Metals

For selection charts see pgs. 74-76

"N" at the end of each model number designates standard PBT/PVC-free Acrovyn 4000 material which will be supplied.

# Acrovyn® Crash Rails

For comprehensive information on these products, visit [www.c-sgroup.com/crashrails](http://www.c-sgroup.com/crashrails)

**FR-125N**

**Product features**

1-1/8" high accent rail  
Acrovyn guard snaps on continuous aluminum retainer  
End cap and outside corner available

**Available in:**

**64** Acrovyn Colors

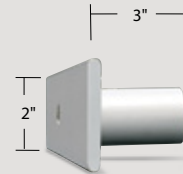

For selection charts see pgs. 74-75

**ECR-20S**

**Product features**

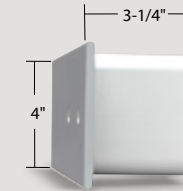

This sleek 2" stainless steel rail offers exceptional impact protection  
2" radius cut ends, rail supplied cut to size only\*  
Stainless steel brackets standard  
Optional powder coat finishes available; see pg. 78

**ECR-32A/60A/32S**

**Product features**

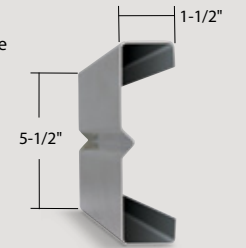

Model ECR-32A is a 4" aluminum rail, Model ECR-32S is a 4" stainless rail, ECR-60A is a 6" aluminum crash rail  
2" radius cut ends, rail supplied cut to size only\*  
Tube brackets standard; other brackets optional: non-exposed fastener for ECR-32S & ECR-32A available  
Optional powder coat finishes available; see pg. 78

**SCR-16SSV**

**Product features**

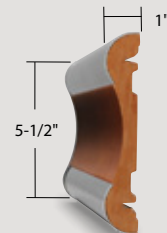

A 5-1/2" stainless steel profile with a V-groove face and factory installed end plates  
Manufactured from 16-gauge stainless steel, cut to size only\*; mounts on 2" stainless clips  
Model SCR-16SSP has a plain face  
Optional powder coat finishes available; see pg. 78

**CRWS-1**

**Product features**

A handsome 5-1/2" high crash rail features flush stainless steel accents and a real wood face\*  
Stainless caps standard, wood caps available  
Cut to size rail mounts on 1" wide stainless steel clips  
Optional powder coat finishes available

**Available in:**

**6** Real Woods

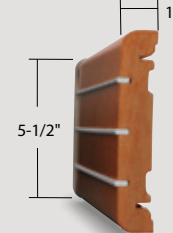

For selection charts see pgs. 78-79

**CRWS-2**

**Product features**

5-1/2" high real wood rail incorporates three 1/8" wide stainless inserts\*  
Stainless caps standard, wood caps available  
Cut to size rail mounts on 1" wide stainless steel clips

**Available in:**

**6** Real Woods

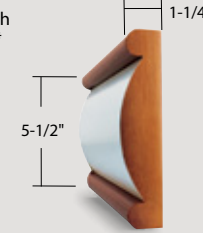

For selection charts see pgs. 78-79

**CRWS-3**

**Product features**

A 5-1/2" high real wood rail incorporates a flush stainless steel face framed with wood accents\*  
Stainless caps standard, wood caps available  
Cut to size rail mounts on 1" wide stainless steel clips  
Optional powder coat finishes available

**Available in:**

**6** Real Woods

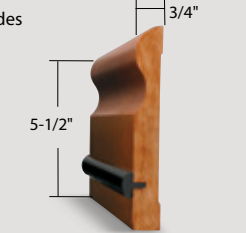

For selection charts see pgs. 78-79

**AW-CRVB**

**Product features**

A 5-1/2" high solid wood crash rail that includes feature bumper for protection; see pg. 79  
Rail can be ordered cut to size with mitered ends; wood plugs conceal fasteners  
Model AW-CR has a plain face

**Available in:**

**6** Real Woods

For selection charts see pgs. 78-79

\*Field verified dimensions required.

"N" at the end of each model number designates standard PBT/PVC-free Acrovyn 4000 material, which will be supplied.

# Acrovyn® Feature Rails

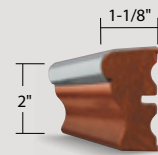

📄 For comprehensive information on these products, visit [www.c-sgroup.com/crashrails](http://www.c-sgroup.com/crashrails)

**FRWS-1**

**Product features**

2" high colonial style chair rail with stainless accent\*; real wood face  
 Stainless caps standard, wood caps available  
 Cut to size rail mounts on 1" wide stainless steel clips  
 Optional powder coat finishes available

**Available in:**

**6** Real Woods

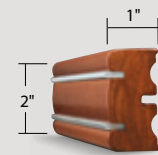

For selection charts see pgs. 78-79

**FRWS-2**

**Product features**

A classic real wood chair rail 2" high with two 1/8" wide stainless steel inserts\*  
 Stainless caps standard, wood caps available  
 Cut to size rail mounts on 1" wide stainless steel clips

**Available in:**

**6** Real Woods
