

Flush Thinline Wall & Ceiling Covers 1"-10"

Use this cover for:

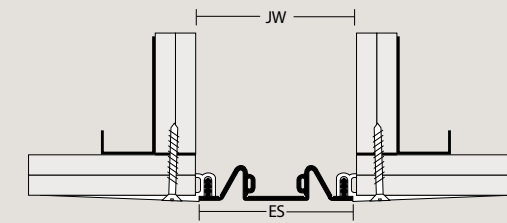

- Wall and ceiling applications to align with and match flush Thinline covers used in the floor.
- Suitable for most wall and ceiling finishes – frame configuration variable to suit selected finish.
- Where hygiene is important.

How it works:

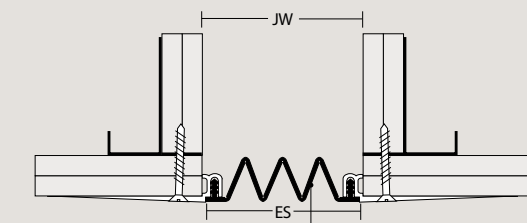

C/S Flush Thinline Wall and Ceiling Covers feature Santoprene gaskets that integrate perfectly with most wall and ceiling surfaces. These single gasket covers provide multi-directional movement and accommodate both thermal and seismic movement.

Flush Twinline Wall & Ceiling Covers 2"-Up

Use this cover for:

- Wall and ceiling applications to match flush Twinline covers used in the floor.
- Suitable for most wall and ceiling finishes.

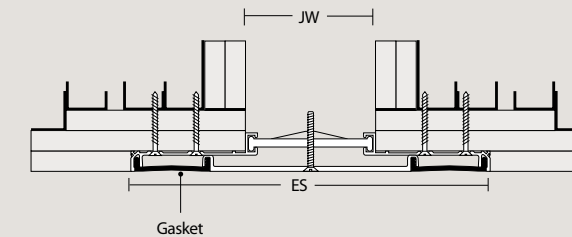

How it works:

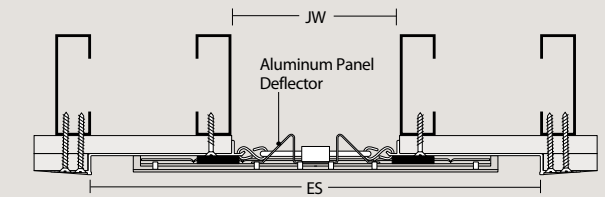

Flush Twinline Wall and Ceiling Covers for standard and seismic application feature dual Santoprene gaskets that expand and compress during movement. The durable aluminum center plate can be painted to match the wall finish, and it temporarily displaces during a seismic event.

Allway Metal Wall & Ceiling Covers 1"-4"

Use this cover for:

- Interior applications to match Allway metal floor covers.
- Standard aluminum covers supplied clear anodized, but Kynar® paint and bronze or stainless top plates available.

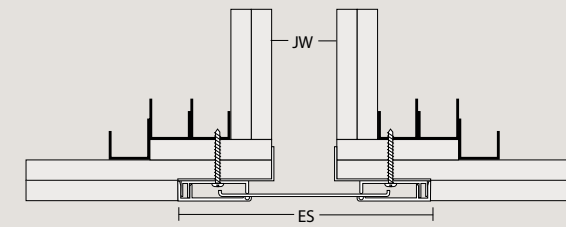

How it works:

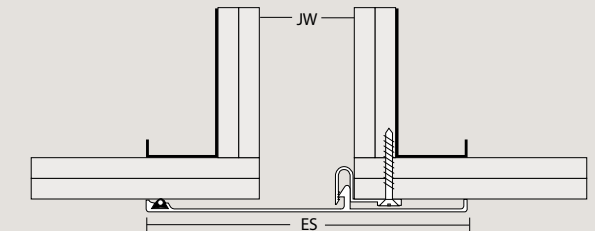

Allway Metal Wall Covers feature a free-floating aluminum center plate that spans the joint and slides between the frame assemblies. Entire cover may be painted to match wall finishes.
